MODEL ANSWERS

QUESTION ONE

The correct answer is <u>D</u>. Cashbook is not a source document, rather it is a book of prime entry which records cash received and cash paid

- A is not correct because sales invoice is a source document justifying the sales of goods on credit.
- B is not correct because purchase invoice is a source document justifying the purchase of goods on credit.
- C₁₂₂ is not correct because credit note is a source document justifying the goods returned. It is issued by the seller to cancel part or all of a previously issued invoice. Y2022 ICPARTULY 2022 ICPAR

QUESTION TWO

The correct answer is **B**. The accounting cycle is as follows: Transactions are documented in source documents and these are summarized in the books of prime entry, then recorded in ledger accounts which are balanced and posted in the trial balance. The accounts in the trial balance are used to prepare financial statements

A is not correct because it brings the ledger accounts before the books of prime entry C is not correct because it brings ledger accounts before journals

D is not correct because it omits the source documents, which are the starting point of the cycle PARJULY2022ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJU

QUESTION THREE

The correct answer is B. Account receivable represents someone who owes you money and you expect to receive in the future PARTHEY 2022 ICPARTHEY 2022 ICPART

- A is not correct because account payable represents amount of money that you owe to a third-party and it is an obligation/liability to be settled in the future
- B is not correct because liability is a present obligation of the entity to transfer an economic resource as results of past event
- Correct because revenue is the amount received by a company from its sales of goods or the provision of services PARJULY2022 ICPARJULY2022 ICPARJULY202 ICPARJULY202 ICPARJULY2022 ICPARJULY202 ICPARJULY202 ICPARJULY202 ICPARJULY202 ICPARJULY

QUESTION FOUR

The correct answer B. Financial performance of the business is presented in the income statement

A is not correct because Balance sheet shows financial position of a business

C is not correct because statement of cash flows records cash inflows and cash outflows

D is not correct because retained earnings statements will record the retained profit only

S2.1 Page 3 of 15

QUESTION FIVE

The correct answer is C because the purchase is on credit, which is a liability and the machinery purchased, constitutes an asset.

A is not correct because it states cash decrease yet there is no cash paid and the capital did not decrease, rather it was an increase in assets.

B is not correct because it considers the increase in increase yet the capital was not affected D is not correct because it states a decrease in liability, yet it is an increase in liability Decrease in liability occurs only when it is settled

QUESTION SIX

The correct answer is D. Option A, B and C are not correct as described below:

Y2022ICPARJULY2022ICPARJULY20	Wrong	Wrong	Wrong	Correct Answer

A Is wrong because common stock is not an asset but it is a capital

B is wrong due to inclusion of dividends which are liability

C is wrong due to revenue considered as asset

QUESTION SEVEN

The correct answer is B. The process of entering accounting transaction in the ledger accounts is known as posting or summarizing accounts is known as posting or summarizing.

A is not correct because balancing occurs after posting transactions in the ledger account

D is not correct because presenting is the process of preparing financial statements

QUESTION EIGHT

The correct answer is B. Credit sales per sales day book are transferred to receivable control account and sales account 1/20221CPARJUHY20221CPARJUH

A is not correct because individual receivables accounts represent account of each customer not control account

S2.1 Page 4 of 15

C is not correct because Sales account are not debited with sales made and receivable ledger is credit when customer pays their debt 1 1/2022 10 PARTITIVE 2022 10 PARTITIVE 2

D is not correct because it credits shoes asset, which is wrong in this scenario

QUESTION NINE

The correct answer is C. Cashbook is used to record receipts of cash including notes, coins, cheques, bank transfers and till receipts have a cheque a

A is not correct because cash payments daybook is used to record all forms of bank payments including standing orders, bank charges, bank transfers, but it does not record any receipt. All receipts are recorded in the Cash received daybook

B is not correct because petty cashbook records only petty cash transactions following the imprest system

D is not correct because the Debit side of the cash book records cash transactions related to the receipts (NOT payments) including cash in hand and cash at bank

QUESTION 10

The correct answer is B. Dr. Return in wards: FRW 45,000; Cr. Receivables: FRW 45,000 This is because the transaction for the return constitutes a decrease in sales and decrease in amount due from debtors

A is not correct because it considers this as the decrease in cash yet there was no cash involved

C is not correct because it increases receivables and decreases sales revenue, which is wrong D is not correct because it considers the net sales of FRW 405,000 instead of sales returns

QUESTION 11

The correct answer is B. Purchases invoices are recorded in the purchase daybook

A is not correct because cheques paid to a supplier are recorded in the cash payments day book PARJULY2022ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY202ICPARJULY20

C is not correct because trade discounts are not recorded in the books of accounts, rather the supplier will deduct them before raising the invoice

D is not correct because carriage in ward is recorded in the cashbook once paid not in purchase daybook

QUESTION 12

The correct answer is C. The depreciation is calculated as follows:

Depreciation expense = (12,000,000+5,000,000)*20%=3,400,000

A is not correct because it does not consider the value of new machine acquired (12,000,000*20%) = 2,400,000 ICPARJULY2022 IC

B is not correct because it deducts accumulated depreciation. This would be deducted only under reducing balance method. Furthermore, it does not consider the new machine acquired ((12,000,000+5,000,000)-250,000) *20%=3,350,000

S2.1 Page **5** of **15**

D is not correct because it deducts accumulated depreciation. This would be deducted only under reducing balance method (12,000,000-250,000) *20%=2,350,000 **2021CPARJULY 20221CPARJULY 20221CPARJULY

QUESTION 13

The correct answer is C. Dr. Depreciation Expense: FRW 2,500,000; Cr. Accumulated Depreciation: FRW 2,500,000

A is not correct because it credits machinery which is an asset. The depreciation expense for the year is credited in accumulated depreciation, which reflects the decrease in asset

B is not correct because it debits the accumulated depreciation, yet this account is for depreciation of disposed asset

QUESTION 14

The correct answer is A. According to IAS16 (Para.6), residual value is defined as the estimated amount that an entity would currently obtain from the disposal of the asset, after deducting the estimated costs of disposal.

B is not correct because depreciable amount is the total amount to be charged over the life of a no-current asset. It is usually the cost of asset less any expected residual sales value or disposal value

C is not correct because the book value/carrying amount is the cost of the asset less its accumulated depreciation as at a given date. PARILITY 2022 ICPARILITY 2022 ICPARILIT

D is not correct because trade in value is the value at which old assets/existing asset is exchanged against new asset

QUESTION 15

The correct answer is D. The accrued rent is calculated as follows:

Total annual rent payable= FRW 600,000*12=FRW 7,200,000

Actual rent paid: = FRW 2,400,000+ FRW 1,800,000+ FRW 2,000,000= FRW 6,200,000

Accrual = FRW 7,200,000-6,200,000 = FRW 1,000,000

A is not correct because FRW 6,200,000 is the actual amount of rent paid

B is not correct because FRW 7,200,000 is total amount of rent payable 20221CPAR.

C is not correct because FRW1,800,000 is the rent payable for the last quarter. However, take note that on quarter 1 there was a prepayment of FRW 600,000 and another prepayment on quarter 3 of FRW 200,000.

OUESTION 16

The correct answer is B. unpaid expense is debited in the expense account and credit in the liability account

A is wrong because it involves double counting CPARJULA

C is wrong because rent not paid represent liability not asset

S2.1 Page 6 of 15

D is not correct because unpaid expense is posted in the liability account

QUESTION 17

The correct answer is B. ii and i are the correct answers.

Irrecoverable debt is a specific debt, which is not expected to be paid.

If an irrecoverable debt is unexpectedly paid after it has been written off but **before** the end of the period in which it was written off, it is debited in receivables control account and credited in irrecoverable debts expense and then record the receipt in the normal way

A is not correct because it excludes "ii" which is also a correct statement

C is not the correct answer because it includes option "iii" which propose wrong entry

D is also wrong because option "iv" is wrong. It reverses the correct entry.

QUESTION 18

The correct answer is C

Allowance for the year ended 31December 2021 will be calculated taking into consideration the allowance made in the previous year (40,000,000*5%) - (28,000,000*1%)=FRW 2,000,000-FRW 280,000=FRW 1,720,000

A is not correct because FRW 280,000 is the allowance for the year ended 31 December 2020 B is not correct because it does not take into consideration the allowance for receivables brough forward from the previous period=FRW40,000,000*5%=FRW2,000,000

D is not correct because it adds the allowance for the subsequent years (40,000,000*5%) - (28,000,000*1%) =FRW 2,000,000+FRW 280,000=FRW 2,280,000

QUESTION 19

The correct answer is **D** (40,000,000-40,000,000*5%) =FRW38,000,000

A is not correct because it only considers net change in the allowance between 2020 and 2021, yet it should consider the total allowance required at the end of the year 31 December 2021 (40,000,000-1,720,000) =FRW 38,280,000

B is not correct because it considers the deduction of the allowances for both subsequent years 40,000,000 - 280,000 - 2,000,000 = FRW 37,720,000

C is not correct because it only considers the allowance for the year 31 December 2020 instead of 2021 = (40,000,000-(28,000,000*1%)) = FRW 39,720,000

QUESTION 20

The correct answer is A. At the end of accounting period, if the total debits exceed the total credits of an account, there is debit balance, which is recorded on the credit side to balance the ledger account and taken to the debit side of the trial balance

B is not correct because in case Dr. exceeds Cr. There is a debit balance (Not a credit balance) RMM y 2022 CPARM W 2022 C

S2.1 Page **7** of **15**

C is not correct because the credit balance will be recorded in the credit side of the trial balance

D is not correct because if Dr. equals Cr., the account is closed off and it not taken in the trial balance

QUESTION 21

The correct answer is C. error of complete omission and transposition errors will not be revealed by the trial balance. For error of complete omission, neither a debit nor a credit is made and the books will still balance. For example: If we sold goods worth FRW100,000 to BIG MAN and omitted to record the transaction in the books, the trial balance will still balance. This is so because the credit and debit balances are understated by FRW100,000.

Transposition errors occurs where the amount is posted to the correct account following double entry but the amount posted is not correct. For example, FRW 143,000 is recorded as FRW134,000. This will likely occur when the error occurs in books of original entry.

A and B are not correct because these errors will affect the trial balance.

D is not correct because A&B are not correct answers

QUESTION 22

The correct answer is A. The error would be corrected by debiting sales by FRW 2,000 and crediting suspense account. Therefore, credit side of trial balance become high than debit side by FRW 7,000

B is not correct because after correction, the credit side will be less than debit side by FRW 7.000

C is not correct because it considers only the prior difference and ignores the new overcasting D is not correct because the difference is calculated wrongly by considering over-casting as decrease in sales

QUESTION 23

The correct answer is **D.** That Journal entry records cash received from Jessica which results into increase in cash and decrease in receivable

A is not correct because if it was cash sales to Jessica, it would Dr. Cash and Cr. Sales

B is not correct because if it was cash purchase from Jessica, the entry would be: Dr. Purchase and Cr. Jessica a/c

C is not correct because payment will reduce cash and then the entry will be Dr. Jessica, Cr. Cash. PARILLY 2022 ICPARILLY 202

QUESTION 24

The correct answer is D. All the options are correct

A When errors are identified, next step is to pass adjustment to correct those errors

B Omitted transactions are adjusted before preparing reports

S2.1 Page **8** of **15**

C Allowance for doubtful debt should be adjusted before finalizing reports for that period

OUESTION 25

The correct answer is A. Dr. Advertising expenses: FRW 540,000(as expense); Cr. Liability: FWR 540,000.

B is not correct because bank could not be credited yet no payment made

C is not correct because this account is a reverse of correct entry

D is not correct because an adjustment is required

QUESTION 26

The correct answer is C. Because the adjustment needed is the increase in allowance for 40.000 ARIULY2022ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202ICPARIULY202

A is not correct because it adds up the opening balance with the closing balance though the double entry is correct

B is not correct because the double entry is wrong and it considers the sum of opening balance and the closing balance

D is not correct because increase in doubtful debt is an expense and should not be credit

OUESTION 27

The correct answer is C and other options are not correct as calculated below:

Length of outstanding debt	Balance as at 30 June 2021	Allowance required	Allowance	Answers PAR
Y 2022 ICPARJULY 2022I Y 2022 ICPAR II II Y 2022 I	CPAR HILLY 2022 ICPAR H FRW	FRW	FRW	RJULY 2022 ICPAR R II II Y 2022 ICPAR

QUESTION 28

The correct answer is D

Since there is an opening balance of FRW8,000,000, and the required allowance as at 30 June 2021 was FRW 7,929,000. Then there is a decrease in allowance for receivables of FRW 71,000 which will be captured in other incomes

A is not correct because it considers provision for doubtful debt as at year end instead of considering changes in allowance

S2.1 Page 9 of 15

B is not correct because change in allowance was computed based on wrong figure FRW 21,634,800 – 8,000,000

C is not correct because it recognizes an increase of FRW 71,000 instead of a decrease yet the required allowance is less than the opening balance

QUESTION 29

The correct answer is A as calculated below:

Y2022ICPARJULY2022ICPARJULY2022ICPALJ	ULY2022 ICI A RIU	Л. Y 2022 I С F B R Л	JLY2022ICI C R∏	JLY2022ICI D I

Prepayment 2021(prepaid c/f)	(12,000)	(12,000)	12,000	12,000
Total PARJULY2022ICPARJULY2022ICPALJ	141,000	111,000	125,000	145,000

B is not correct accrued c/d was deducted and accrued b/d added.

OUESTION 30

The correct answer is B

A is not correct because accrued expense is an expense due but not yet paid. Thus, it is a current liability, accrued income is an income earned but not yet received. Thus, it is a current asset

C is not correct because accrued income is an income earned but not yet received. Thus, it is a current asset NOT A liability

D is not correct because accruals are recognized in the statement of financial position as explained in the above options 221CPARJULY2022 ICPARJULY2022 ICPA

QUESTION 31

The correct answer is C

During the appropriation of partnership profit, interest on drawings charged to partner is debited to partner's current account and added back to the profit available for appropriation

A is not correct because the interest are charges to currents accounts not as additions and they should be deducted from his current account CPARJUM 2022 CPARJUM

B interest on drawing should be debited in current account

S2.1 Page **10** of **15**

C is not correct since it adds all prepayments and deducts all accruals.

D is not correct since prepaid b/f was deducted instead of adding it, while prepaid c/f was added yet it should not

The correct answer is A.

Profit=Sales*Margin

Margin=Markup/100-Markup

Margin=25/100+25=25/125=20%

Gros profit = 5,000,000*20/100=FRW1,000,000

B is not correct because the profit was calculated using markup. Yet markup is a percentage of cost, FRW 5,000,000*25%

C is not correct because it calculates the cost of sales, FRW 5,000,000*80%

OUESTION 33

The correct answer is A

T 2022 IC PARJUL Y 2021 IC PARJUL Y 2022	FRW
Opening carrying amount at 1 January 2021 (22 ICPARJULY 2022 ICPARJULY 20	2210 200,000,000
Less: Carrying amount of disposed asset (25,000,000+5,000,000	(30,000,000)
Less: depreciation for the year 221CPARH II Y2022 ICPARH II Y2	(20,000,000)
Carrying amount of non-current assets at 31 December 2021	7221C AR 150,000,000

B is not correct because it has considered the proceeds from disposal as the carrying amount of disposed asset (200,000,000-25,000,000-20,000,000) =155,000,000

D is not correct because it did not take into consideration the carrying amount of disposed asset (200,000,000-20,000,000=180,000,000 CPARJULY 2022 ICPARJULY 2022 ICPARJUL

QUESTION 34

The correct answer is C as calculated below:

ITEMS RHILY2022ICPAH	JULY2022 ICPARJULY2022 ICPAR FRW 0	22ICPARJULY2022ICPARJULY2022ICPAR
Sales Revenues	ULY2022ICPARJULY2022 (5,400,000)	22ICPARJULY2022ICPARJULY2022ICPAR
Cost of sales	2,826,000	22 ICPARJULY 2022 ICPARJULY 2022 ICPAR 22 ICPARJULY 2022 ICPARJULY 2022 ICPAR
Gross Profit Y2022 ICPAH	HULY2022 ICPARHULY2022 I(2,574,000)	Option A (Wrong) JULY2022 ICPAR
Other incomes	JULY2022ICPARJULY2022ICPARJULY20	22ICPARJULY2022ICPARJULY2022ICPAR
Commission income	180,000 180,000	P2ICPARJULY 2022ICPARJULY 2022ICPAR
Rent income Y2022ICPAT	HILY20221CPARJULY20221CP 126,000 0	22ICPARJULY2022ICPARJULY2022ICPAR
Total incomes	2,880,000	Option B (Wrong)
Salaries and wages	ил у2022 ICPAR ил у2022 ICP 792,000	22ICPARJULY2022ICPARJULY2022ICPAR
Bank loan interest CPA	ULY2022ICPARIULY2022ICPA 43,000	22ICPARJULY2022ICPARJULY2022ICPAR
Electricity and water	144,000	ZICPARJULY 2022ICPARJULY 2022ICPAR
Insurance Type 2022 ICPAT	JULY2022 ICPARJULY2022 IC 810 ,000	22ICPARJULY2022ICPARJULY2022ICPAR
Total expenses	ULY2022 CPARJULY2022 (1,789,000	22ICPARJULY2022ICPARJULY2022ICPAR
Net profit	1,091,000	Option C correct

D is not correct because there is a correct answer, which is C

S2.1 Page 11 of 15

C is not correct because it has deducted loss from proceeds to get carrying amount of disposed assets (200,000,000-20,000,000-20,000,000) =160,000,000

The correct answer is A:

Y Items PARJULY 2022 ICPARJULY 2022	FRW
Motor vehicle-Carrying amount CPARJULY2022 ICPARJULY2022 ICPARJULY202	2,340,000
Inventory at 31 Dec 2021	846,000
Bank PARILITY 2022 ICPARILITY	90,000
Cash CPARJULY2022ICPARJULY2022ICPARJULY2022 ICPARJULY2022ICPARJUL	Y2022ICPARJULY2(18,000R
Accounts receivable	456,000
Allowance for receivables 1/2022 ICPARIUH 1/20	(24,000)
Total assets Y20221CPARJULY20221CPARJULY20221CPARJULY20221CPARJUL	Y20221CPARJU1 3,726,000 R

- B does not deduct the allowance for receivables yet it is a decrease accounts receivable (2,340,000+846,000+90,000+18,000+456,000) =3,750,000 PARTULY 2022 ICPARTULY 2022 I
- C adds up the allowance for receivables yet it is a decrease in accounts receivables =2,340,000+846,000+90,000+18,000+456,000+24,000=3,774,000
- D is not correct because the information provided is enough to calculate total assets

QUESTION 36

The correct answer is C

- A Allowance for receivable decrease assets so, it should not be added
- B Allowance for doubtful debt does not represent any obligation to the company

QUESTION 37

The correct answer is **D**. All answers are correct. Thus, A, B, C alone are not correct answer because they exclude one another

OUESTION 38

The correct answer is D. This loan is due on 31 December 2023. No part of the loan is repayable within the current year or even a period of 12 months, so the whole amount is classified as non-current liability

- A is not correct because it considers the loan to be repaid in the next 12 months/1year and recognizes it a current liability PARIM Y2022 CPARIM Y20
- B is not correct because it considers the first installment of FRW 5, 000,000 (15,000,000/2) to be repayable in the current year and the outstanding balance of FRW 10,000,000 as non-current liability. This is wrong because the first installment is only due in 2023
- C is not correct because FRW 10,000,000 are not due within 12 months

S2.1 Page 12 of 15

The correct answer is C. Opening Inventory is not recorded in the trial balance at the end of the year. Closing inventory is recorded on the debit side as a current asset, drawings are recording in trial balance on the debit side as decrease in capital and rent expense is recorded on the debit side as an expense

OUESTION 40

The correct answer is B

Depreciation for the year = (16,000,000/4) *9/12=3,000,000 because the asset was used by the business only for 9 months instead of the full year

A is not correct because depreciation computed was for 12 months, instead of proportioning it for 9 months

C is not correct because it uses the wrong double entry and wrong amount, FRW 16,000,000/4

D is not correct because the double entry is not correct (the entries are reversed)

QUESTION 41

The correct answer is A.

The profit or loss on disposal is the difference between the sale price of the asset and the carrying amount of the asset at the time of sale PARIM Y2022 CPARIM Y2022 CPARIM

B is not correct because profit is made when the sale price exceeds the carrying amount C is not correct because loss is made when the carrying amount exceeds the sale price

QUESTION 42

The correct answer is A as calculated below:

Cost	Depreciation for the year	Acc. Depr.	Carrying Amount
28,000,000	25,600,000 022 ICPARJULY2022 IC	PAR5,600,000 PARJULY	22,400,000
22,400,000	4,480,000	10,080,000	17,920,000
17,920,000	23,584,000 022 (CPARJULY2022 IC	13,664,000 ARJULY	14,336,000

Loss on Disposal= Sales-Carrying amount=10,000,000-14,336,000= **4,336,000 loss Option B is not correct since it uses** straight line Method. FRW 10,000,000-((28,000,000-(28,000,000*20%*3)) =6,800,000

Option C is not correct, it uses the reducing balance method but it reports as the profit yet the sales proceed is less that the carrying amount. Option D is also not correct as it uses straight line method and reports a profit on disposal

S2.1 Page **13** of **15**

The correct answer is **D**. Other options are not correct since the non-current asset register is not part of double entry system.

QUESTION 44

The correct answer is D.

Recoverable VAT represent amount due from tax authorities

A is wrong because, recoverable VAT do not represent amount owed to the government

B Recoverable VAT is not income

C only unrecoverable VAT are capitalized

QUESTION 45

The correct answer is A as calculated below: CPARJULY2022 ICPARJUL

Y2022 ICPARJULY2022 ICPARJULY2	FRW
Sales VAT output (Collected) = (5,000,000*18/118)	762,712
Purchase VAT input (paid) = (3,200,000*18/100)	(576,000)
Net VAT Payable	186,712

B is not correct because it refers to VAT as refund yet output VAT exceeds the input VAT which results into a VAT Payable

C is not correct because the VAT output was wrongly calculated

(5,000,000*18%) -(3,200,00*18%) =FRW 324,000

D is not correct because the VAT output was wrongly calculated and wrongly interpreted (5,000,000*18%) -(3,200,00*18%) =FRW 324,000

Note: When a price is quoted exclusive: VAT=Price*18% When a price is quoted inclusive: VAT=Price*18/118

QUESTION 46

The correct answer is D as calculated below:

Y 2022 ICPARJULY 20 Y 2022 ICPARJULY 20	A (Wrong)	B (Wrong)	C (Wrong)	D ²⁰²² ICPA
Y2022ICPARJULY20 Y2022ICPARJULY20	FRW UTY2022ICPA	RJUL 2022 ICPARIULY203 RJUL FRW ARJULY203	FRW ULY2022ICPARJ	(Correct) FRW
Purchase	1,770,000	1,770,000	1,770,000	1,770,000
Credit note	(354,000)	(354*100/118)	(236,000*100/118)	(236,000)
Amount to	1,416,000	1,470,000	1,570,000	1,534,000
appear	22ICPARJULY2022ICPA	ARJULY2022 ICPARJULY202	2ICPARJULY2022ICPARJ	ULY2022ICPA
cheque	ZZICPARJULY 2022ICPA	ARJULY ZUZZ ICPARJULY 202 AD II II MOOOO ICDA DII II MOOO	ZICPARJULY 2022ICPARJ	ULY 2022ICPA

A is not correct because debit note is a request for a credit note, it should not be deducted while processing payment

S2.1 Page **14** of **15**

B is not correct because VAT on debit note has no impact on payment as the initial subject matter i.e debit note is not even considered while processing payment

C is not correct because amount on credit note which is deducted while preparing payment must be inclusive of VAT

QUESTION 47

The correct answer is D. All the statements are true

Zero rated supplies are taxed at 0%

B VAT are not imposed on goods and services related to health, precious metals and education materials

C all standard goods pay VAT

QUESTION 48

The correct answer is B. 15 November 2021 Article 25 of the VAT law states that the VAT shall be declared Within fifteen (15) days after the end of the period of the value added tax. All other options are not correct

QUESTION 49

The correct answer is B

VAT is calculated only on standard rated supplies (70%) taxed at 18% Then VAT Output = (317,000,000*70%) *18/118= FRW33,849,153

A is not correct as it calculates VAT as if the sale price was VAT exclusive=

Then VAT Output= (317,000,000*70%) *18%= FRW 39,942,000

C VAT calculated without considering 30% of zero-rated goods, FRW 317,000,000*18/118 D are not correct as they calculate VAT basing on the 100% of supplies without taking into account the zero-rated goods. The figure is calculated as follows: FRW 317,000,000*70*18% while for D, FRW 317,000,000*18%

QUESTION 50

The correct answer is B.

An administrative fine of FRW500,000 is charged for non-registration of VAT.

- A is not correct because FRW 200,000 is charged to tax payer who does not have EBM but 20 he/she is required to have it 22 CPARJULY 2022 ICPARJULY 2022 ICPA
- C is wrong answer because FRW 300,000 Is charged for late declaration of VAT for tax payer whose annual turnover above FRW 20 million
- D is not correct because FRW 100,000 is charged for late declaration of VAT for tax payer whose annual turnover below FRW 20 million
