SECTION A

QUESTION ONE

On 1st June 2021, Mageza Ltd acquired 20,000 shares in Karakye Ltd. Mageza Ltd paid FRW 15,000,000 cash and gave Karakye Ltd, 1 for every 5 shares held in Karakye Ltd at a price of FRW 600 each. The share capital of Karakye Ltd was 30,000 shares of 500 FRW each.

In the books of accounts of Mageza Ltd, Karakye Ltd will be treated as:

- A Investment
- B Subsidiary
- C Associate
- D Joint Venture

(2 Marks)

QUESTION TWO

Which one of the following statements is true about revaluation of non-current assets as per IAS16?

- A If an asset is being revalued for the first time, and its carrying amount is decreased as a result of a revaluation, the decrease shall be recognized in other comprehensive income as a surplus for the year.
- B If an asset is being revalued for the first time, and its carrying amount is decreased as a result of a revaluation, the decrease shall be recognized as income for the year. However, the decrease recognized in incomes reduces the amount accumulated in equity under the heading of revaluation surplus
- C If an asset's carrying amount is increased as a result of a revaluation, the increase shall be recognized in other comprehensive income and accumulated in equity under the heading of revaluation surplus. However, the increase shall be recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss.
- D None of the above is true

(2 Marks)

QUESTION THREE

At 31 October 2019, a business had machines with a cost of FRW120,000 and with accumulated depreciation of FRW25,000. On 1 January 2020 they sold a machine for FRW10,000. This machine had original cost of FRW30,000 as at 1 April 2018.

The business had a depreciation policy of charging straight-line depreciation at the rate of 20% per annum with proportionate depreciation in the year of acquisition and year of disposal

What is the depreciation expense for the year ended 31 October 2020?

- A FRW4,000
- B FRW15,000
- C FRW19,000
- D FRW18,000

QUESTION FOUR

The purpose of the statement of Financial Position is to indicate?

- And The assets of the business and the claims against those assets
- B A clear and definite estimate of what a business is really worth
- C. The amount the business could be sold for as a going concern
- D The amount the business could be sold for in liquidation

(2 Marks)

QUESTION FIVE

How should a contingent liability be included in a company's financial statements, if the likelihood of a transfer of economic benefits to settle it, is remote?

- A Disclosed by note with no provision being made
- B No disclosure or provision is required.
- C Recognize the contingent liability in the face of financial statements
- D Recognize the provision as a liability

(2 Marks)

QUESTION SIX

At 31 December 2019, a company's capital structure was as follows:

Ordinary share capital (5000 shares of FRW25 each) FRW125,000 Share premium FRW100,000

During the year ended 31 December 2020, the company made a rights issue of 1 share for every 2 held at FRW100 per share and this was taken up in full. Later in the year the company made a bonus issue of 1 share for every 5 held, using the share premium account for the purpose.

What was the company's capital structure at 31 December 2020?

- A Share capital account: FRW187,500; Share premium account: FRW287,500
- B Share capital account: FRW625,000; Share premium account: FRW375,000
- C Share capital account: FRW225,000; Share premium account: FRW287,500
- D Share capital account: FRW225,000; Share premium account: FRW250,000

SECTION B

QUESTION 11

Mr. KIGENZA operates a small business in the Eastern-Province Rwanda. The business uses local raw materials in its production process and finished products are sold in Kigali. They have different suppliers and some of them allow Mr. KIGENZA to have 14 days credit. The demand and popularity of Mr. KIGENZA's products increased. As a result, Mr. KIGENZA planned to expand the business by acquiring new factory coupled by hiring new production and sales staff. In order to do this, he needs to take out a bank loan.

Required:

Identify the key external stakeholders who would require information regularly from Mr. KIGENZA's business and explain briefly why these stakeholders would require that information (10 Marks)

(Total: 10 Marks)

QUESTION 12

Mr. James uses Quickbooks as his accounting information system software. One of his business routine tasks in book-keeping is to create sales order, prepare invoice and update sales ledger.

The management of his company had designed some controls in the computer system to ensure that the financial reports produced are free from any material error or misstatement.

Before entering a transaction batch, Mr. James counts the number of documents they are dealing with and calculates the total value of each transaction i.e 12 order at a total of FRW 20 million. The number and value are input into a prompt screen. When they are done with recording all data, the computer calculate whether it has processed 12 orders at RWF 20 million and will produce an error report if any.

As they are recording data, the computer program automatically verifes if the information are reasonable and accurate. The system is programed to compute expected results and reject it for any deviation e.g in the customer account field, they should be entering three letter followed by six number e.g BCD123456. The computer will also reject the entire customer number it does not recognize as all authorized customers are entered into a master file. Once the information is processed, Mr. James prints the invoices and match them with sales orders. If found to be correct, he processes sale ledger.

In order to do this, he has to answer a prompt reminding him to agree the invoice back to the sales orders. Unless he confirms that he has done this, the computer will not update the ledger. It is not possible to exit the program until the ledger is updated.

However, despite all these effective controls, one of the directors stressed that things can still go wrong and that management need to monitor the internal controls put in place due to the inherent limitations of the accounting system.

S3.1022iCPARAPRIL2022iCPARAPRI

Required:

Explain Five (5) inherent limitations in the context of the internal controls of an organization and explain the reasons why this would still occur in the business of Mr. James. (10 Marks) (Total: 10 Marks)
